

NUCOR
BAR MILL GROUP
NUCOR STEEL KANKAKEE, INC.

October 10, 2013

To Our Valued Customer:

Nucor Steel Kankakee, Inc. operates an EAF (Electric Arc Furnace) melt shop and purchases scrap of recycled ferrous products as our only source of iron. Steel billets are produced in the melt shop and hot rolled into the various products sold including: rebar, smooth rounds, and shapes such as angles, channels, and flats. All products made at Nucor Steel Kankakee, Inc. meet the standards to which they are ordered.

All products sold from Nucor Steel Kankakee, Inc. are manufactured in Bourbonnais, IL, United States of America, and therefore meet the requirements of Section 1605, the "Buy American" provision of the American Recovery and Reinvestment Act of 2009. In addition, all products made at Nucor Steel Kankakee, Inc. comply with United States Code, Section 313, Title 23 C.F.R. 635.410 required by the Federal Highway Administration (FHWA) for their "Buy America" policy.

We have also passed The American Association of State Highway and Transportation Officials' (AASHTO) National Transportation Product Evaluation Program (NTPEP) Audit Program.

Sincerely,

Matt Luymes
Chief Metallurgist
