Re: **RECYCLED STEEL CONTENT**

The steel used in the manufacture of ZAP SCREWLOK®, by BarSplice Products, Inc, is procured from various steel mills. The recycled steel content is reported by such mills as follows:

Mill name and Location	Recycled Content (Approximate)			Non Recycled Content
	Post-Consumer	Post-Industrial	Total	
Steel Dynamics, Inc., Pittsboro, IN.	Between 75% and 84%	Between 10% and 15%	Between 82% and 89% (LEED formula)	'Home' scrap 2-4% 'Alternate iron' 4-6%

This list may be updated from time-to-time as information made available.

Sincerely,

Steve Holdsworth

VP Operations, Technical Manager
BarSplice Products, Inc.
